

Master Transition Plan

Shamyra Henderson

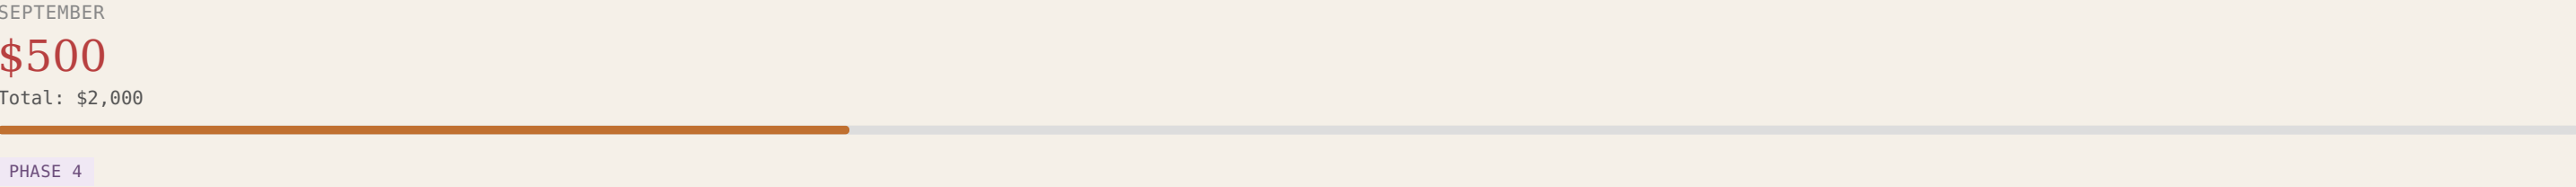

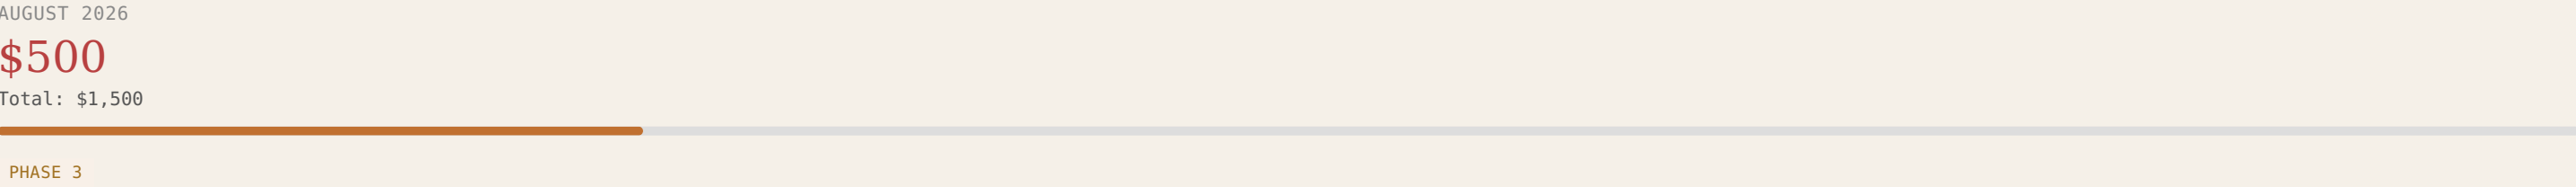

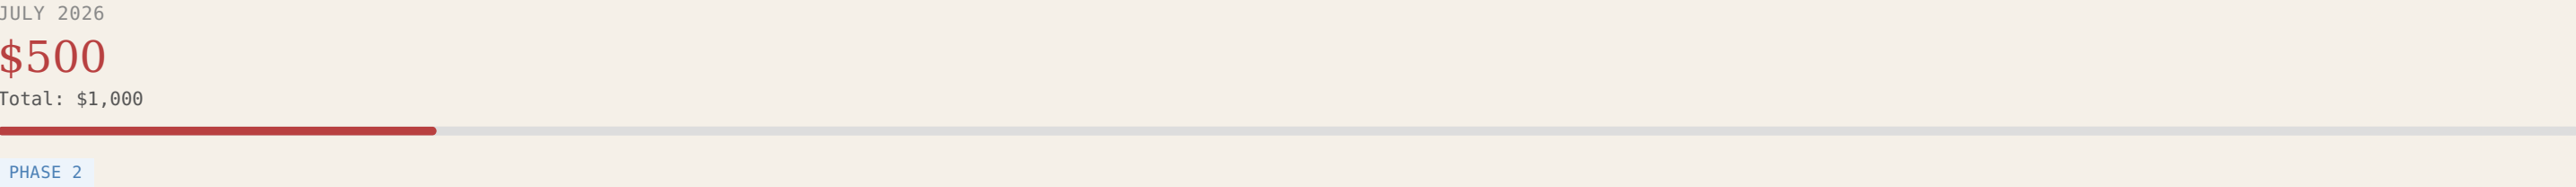

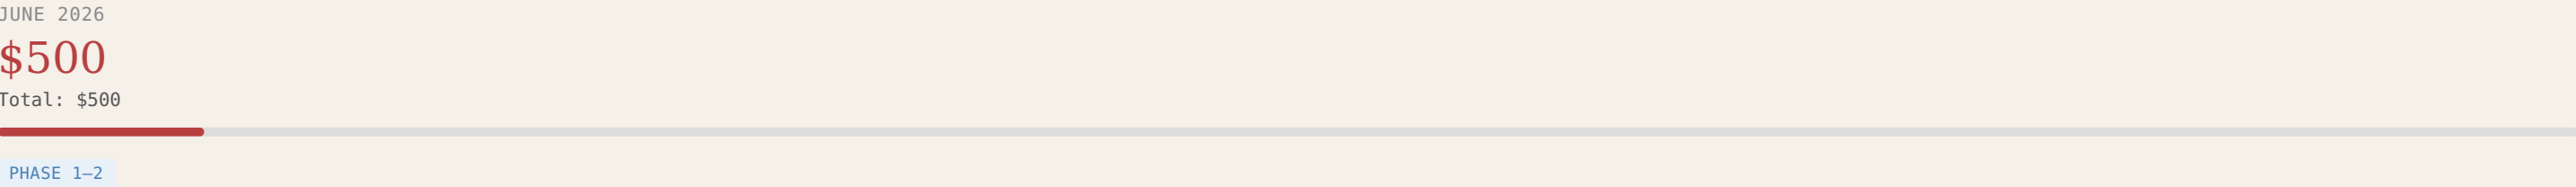

FRONT-END DEVELOPMENT · JUNE – DECEMBER 2026 · SUGAR LAND, TX · TARGET EXIT: NOVEMBER 2026

⚠ The Savings Gap — Read This First

Your safety threshold is **2 months of expenses = \$6,000 minimum**. Saving less than \$500/month over 6 months (June–November) yields roughly **\$3,000** — half your target. November exit is only safe with a job offer in hand. Every extra month = \$500 closer to runway. The skills will be ready. The savings require attention.

Savings Runway Tracker

Goal: \$6,000 by exit · Saving ~\$500/month · Starting from \$0 in June 2026 · Gap at November: ~\$3,000

OCTOBER \$500 Total: \$2,500 PHASE 5		
NOVEMBER \$500 Total: \$3,000 EXIT TARGET		
DECEMBER \$500 Total: \$3,500 HARD BACKSTOP		
GOAL \$6,000 2 months runway SAFE EXIT		
To close the gap: Accessibility audit freelance work starting September (\$175–375/audit) + any additional \$200–300/month closes the gap meaningfully. A job offer in hand at exit makes the savings gap less critical.		
Month-by-Month Plan		
June PHASE 1 · FOUNDATIONS Saved: \$500 → \$500	LEARNING FOCUS → Complete freeCodeCamp HTML/CSS cert by June 15 → CSS custom properties, Flexbox, Grid deep dive → WAVE audit write-up finalized with screenshots → Install NVDA or activate VoiceOver → CPACC: disability models + business case (3×/week)	MILESTONES ✓ freeCodeCamp RWD cert earned ✓ WAVE audit documented as case study ✓ Screen reader installed and explored ✓ Portfolio sessions running Mon–Thu 1–3pm

July PHASE 2 · JAVASCRIPT Saved: \$500 → \$1,000	LEARNING FOCUS → freeCodeCamp JS Algorithms & Data Structures cert → Variables, functions, arrays, objects, DOM manipulation → JS + accessibility: managing focus, ARIA live regions → CPACC: WCAG 2.1 POUR principles + assistive tech types	MILESTONES ✓ freeCodeCamp JS cert earned by July 25 ✓ One JS-powered accessible component built ✓ WebAIM NVDA guide completed ✓ \$1,000 saved — note the gap
---	---	--

August PHASE 3 · PORTFOLIO BUILD Saved: \$500 → \$1,500	LEARNING FOCUS → Houston Public Works rebuild — all pages, responsive → ARIA landmarks, skip nav, full keyboard support → Screen reader testing checklist on every page → Deploy on GitHub Pages with README + case study → CPACC: ADA, Section 508, international laws (4×/week)	MILESTONES ✓ Houston PW project live on GitHub Pages by Aug 31 ✓ Screen reader findings documented in case study ✓ CPACC exam registered by Sep 1 ✓ Read 2–3 sample audit reports (Deque / WebAIM)
--	--	--

September PHASE 4 · REACT PROJECT 2 Saved: \$500 → \$2,000	LEARNING FOCUS → The Odin Project: React fundamentals (components, props, state) → Second portfolio project: accessible interactive component → Custom dropdown or modal with full keyboard + screen reader support → CPACC: IAAP practice exams begin	MILESTONES ✓ React basics solid — components + state understood ✓ Second project 50% complete ✓ CPACC exam date confirmed ✓ Begin outreach for accessibility audit clients
---	--	--

October PHASE 5 · JOB SEARCH Saved: \$500 → \$2,500	LEARNING FOCUS → Polish portfolio: consistent design, accessibility statements → Second project complete and documented by Oct 15 → CPACC exam sat in October → LinkedIn + GitHub profiles finalized → Resume targeting front-end + accessibility roles	MILESTONES ✓ Portfolio site live with 2+ projects by Oct 1 ✓ Resume + LinkedIn updated by Oct 7 ✓ 10+ applications submitted by Oct 31 ✓ Informational interviews started via ADPList
--	--	---

November EXIT TARGET Saved: \$500 → \$3,000	CONDITIONS FOR EXIT → Job offer in hand — or offer imminent and confirmed → Portfolio complete with 2+ projects + case studies → CPACC completed or freshly sat → \$3,000 saved — acknowledge the gap honestly	IF NOT READY ✓ Do not exit without an offer — gap is too tight ✓ December is the absolute backstop ✓ Use November to negotiate start date if offer arrives ✓ Every extra month = \$500 closer to runway goal
--	--	--

Non-Negotiable Rules

- ✦ Saturday AND Sunday are fully protected — no guilt, no exceptions
- ✦ Friday evenings are free — the week ends at 5pm on Fridays
- ✦ Gym + lunch break is non-negotiable — protect your body during the summer push
- ✦ Portfolio work lives in the afternoon (summer) and 7–8pm (school year) — not scattered
- ✦ 30 minutes at 5am during school year is enough — consistency beats intensity
- ✦ November exit only happens with an offer — not on hope alone
- ✦ The savings gap is real — accessibility audit freelance work starting September closes it
- ✦ If a week slips, reset the next — don't abandon the structure
